## HIGHLIGHTS FROM THE SURGE - CAMUNDA DEVELOPERS SUMMIT !

During the second quarter of this year, Surge had the privilege of participating in the Camunda Developers Summit. This event is a distinctive and engaging two-day gathering, bringing together developers, enterprise architects, and process collaboration experts. Held on May 10th - 11th, 2023, the summit provided a platform for peer-to-peer learning, fostering creativity, and encouraging collaboration.

We are immensely proud and grateful to have had the opportunity to be a virtual sponsor of this event.

Big News!

# "Accelerating Digital Innovation:

# Surge and Appian Forge Powerful

# Partnership"

## "Welcoming our new joinees"

Welcome aboard, Nhat Pham! Introducing our talented software developer to the Surge team.

Introducing Asha Pondicherry, skilled Technical Business Systems Analyst, joining the Surge team.

Introducing Darshan Mattam Ramesh Reddy, taking charge as our IT Project Coordinator at Caterpillar with precision and expertise.

## Project update.

Through the collaborative endeavors of our team, we have achieved a seamless transition of project SYNTO 1.0 into a state of readiness for production, culminating in an expansion of our engagement. As we commence this quarter, we have embarked upon the development of Synto 1.1, marking a significant milestone in our continuous progress.

## Thank you all.. We've hit 8k LinkedIn followers!!
